

Wouldn't you agree, healthy kitties are the
happiest?

If your favorite family member struggles to stay at a healthy weight, their current food formula may be to blame. Our all-in-one formula has been proven to help your cat lose weight. With Purina's new Slim Kitty™ dietary cat food, you won't need to worry about a fluctuating number on a scale, trips to the vet for urinary tract problems, or even food angrily scattered across the floor. Your cat will love these tofu bits of fish, beets, liver, and cheese flavors, and will love you even more for giving it a longer, happier life.
